A Little Confidence Yet That the Governor Will Interfere.

Unless Gov. Hill grants John Greenwall a respite within the present day he will be hanged to-morrow morning in the Raymond Street Jail, Brooklyn, for the murder of Lyman S. Weeks in

A rumor was current early this forenoon that District-Attorney Ridgway had received a despatch from the Governor granting, a respite of thirty days to Greenwall.

Mr. Ridgway said that he had not received any word from the Governor about a respite, and then, glaring at the reporter, he continued: "Why should I? There is no reason why a respite should be granted. If Greenwall had his deserts he would have been strung up the morning after the murder."

' Have you read Miss Becker's affidavit in this merning's World as to Burglar Krause's admission that he killed Weeks?" asked the re-"I was just reading it. Why didn't she come

MRS. MACKAY WINS

That English Paper Must Pay for Calling Her a Washerwoman.

Golden, owned by J. E. Kerr & Co., of this city.

The Edith Golden left New York for Montego Bay, in command of Capt, Logoe, with a cargo of general merchandise, Nov. 12. She had an uneventful yoyage until when within thirty miles of her destination water was discovered pouring into the steamer. She was found to have sprung a leak.

This was at 10 o'clock, P. M. The crew were put to work at the pumps and for two hours efforts were made to save the vessel. At midnight Captain Legoe, saw that the steamer was doomed and ordered the lifeboats lowered.

The men had scarcely got into the boats and pulled away from the vessel when the steamship went down. After pulling about for a half an hour a tugboat hove in sight and rescued the shipwrecked men. No lives were lost.

The Same Gallows for Him on Which The Famous Quartet of Electric Sugar Swindlers Abandon Their Defense.

The last stage but one of the famous electric

sugar-refining swindle was reached to-day in the Court of General Sessions. Howard, the chief conspirator, was tried and convicted several days ago, and his fellow-conspirators, who have languished in prison since last March, will soon keep him company in the service of the State. Mrs. Olive E. Friend, Mrs. Emily Howard. Orrin A. Halstead and George Halstead, the remaining defendants, were brought before Recorder Smyth this morning, and stated that they wished to plead guilty to one indictment

for grand larceny. There were three indictments pending against There were three indictments pending against the prisoners, but in consideration of their plea the Recorder discharged them on the remaining two indictments on their own recognizance.

When called up to plead, each defendant formally withdrew the plea of not gmilty previously recorded, and meaded guilty as stated. They gave their names and agas at follows:

Mrs. Friend, and theiry-sevent Mrs Howard, and diffy-right: Orra Haistead, aged thirty-seven, and George Haistead, aged twenty-eight, All gave their residence as Milan, Mich.

Their counsel, Lawyer Howe, had nothing to say.

Their counsel, Lawyer Howe, had nothing to say. There is no use in saying anything," he replied to an Events World reporter's question. "All that could be said was said at Howard's trial."

The Recorder took all the papers and remanded the prisoners for sentence. As Mrs. Friend has always been regarded as the leading and ruling supiri in the conspiracy it is thought she will receive the heaviest sentence.

The chargh to which they pleaded guilty was identical with that on which Howard was tried and convicted.

with a last word of disgust, Lawyer Anderson, one of Greenwall's counsel. GREENE DON'T

He received a letter from Greenwall, written | The Dock Department Engineer Ignorant on Many Points.

> That old institution, the pamphleteer, has been revived and the objects of his attack are the Commissioners of Accounts. A sheet of printed matter was industriously

distributed on the streets to-day.

Its author declares that the Dock investigaion by the Commissioners of Accounts is a farce, conducted on illegal lines by ignorant men simply for the benefit of the newsmongers. On the resumption of the investigation this morning Charles S. Greene, the Engineer-in-Chief of the Department, was recalled as a

He didn't know that the city's Dredge No. 4 had been used by the Bresiging Company in 1888. He knew that he had reported tunfit for service and supposed it was laid up at the Thirt ed's treet yard.

He knew it was sold for \$2,500 in December. 1888, to the Union Dredging Company, and that it, with No. 3, which was sold for \$400 at the same, was inventoried as worth \$15,000. Who was responsible for that inventory he said he did not know.

The reason why all these questions were asked appeared when Corporation Counsel Clark plumped his next interrogatory at the witness.

Inestimable As a Leavening Agent.

The Royal Baking Powder possesses a peculiar quality, not possessed by any other leavening agent. It provides bread, biscuit, cake, muffins, dumplings or rolls, which may be eaten when hot, without inconvenience, by persons of the most delicate digestive organs. With most persons it is necessary that bread raised with yeast should lose its freshness or become stale before it can be eaten with safety. Distressing results likewise follow from eating biscuit, cake, pastry, etc., raised by the cheap, inferior baking powders that contain lime, alum, phosphates or other adulterants.

The hot roll and muffin and the delicious hot griddle cakes raised by the Royal Baking Powder are as wholesome and digestible as warm soup, meat or any other food.

This is a qualification peculiar to the Royal Baking Powder which makes it inestimable as a leavening agent.
